

WEEE Take Back Offer (Landis+Gyr, Ireland):

Landis+Gyr is committed to meeting the requirements of the European Union (Waste Electrical and Electronic Equipment) Regulations 2014 (S.I. No.149 of 2014) for Ireland. These Regulations require producers of electrical and electronic equipment to finance the takeback of Waste Electrical and Electronic Equipment (WEEE) resulting from products that Landis+Gyr place on the Irish market. This helps Landis+Gyr to ensure that WEEE is reused or treated and recycled safely and responsibly. In line with that commitment Landis+Gyr will take back WEEE from its customers based in Ireland. Please refer to the contact details provided below.

As a customer of Landis+Gyr, you also have a role to play in ensuring that WEEE is reused and treated and recycled safely and responsibly. So, if you choose not to return WEEE to Landis+Gyr then you should not dispose of it through a normal general waste stream. The crossed out wheeled-bin symbol on the product reminds users not to dispose WEEE through a normal general waste stream. You should ensure that the WEEE is collected separately and sent for safe and responsible treatment and recycling. WEEE contains hazardous substances and if not managed and treated appropriately can cause pollution and damage to human health.

To arrange take back of WEEE in Ireland, please contact the following person at Landis+Gyr:

Simon Egan
Managing Director
UK and Ireland
The Landing
